PROFESSIONAL SUMMARY

Software Engineer experienced in full-stack web development using Spring Boot, React, and MongoDB. Skilled in REST API design, database optimization, DSA, and modern cloud deployment.

EDUCATION

Southeast University *June 2023 – June 2027 (Expected)*

Bachelor of Science in Computer Science and Engineering (CSE) | CGPA: 3.86 / 4.00

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, C/C++, Python, SQL (MySQL), NoSQL (MongoDB)
- **Frameworks & Libraries:** Spring Boot, Spring Security, Microservices, React, Tailwind CSS, Thymeleaf, Pandas, NumPy, Matplotlib
- **Developer Competencies:** RESTful API Design, Object-Oriented Design (OOD), Data Structures & Algorithms (DSA), Agile/Scrum Development, Database Optimization
- **Tools & Platforms:** Docker, Git, GitHub, Postman, Jira, Render, Vercel

PROJECTS

Easy-ToLet — Rental Property Platform: *Spring Boot, Thymeleaf, MongoDB, React*

Live: easy-tolet.onrender.com

- Architected a full-stack rental platform using Spring Boot and MongoDB with complete SRS/UML specs.
- Engineered microservices, integrated dynamic UIs with React/Thymeleaf, and deployed on Render.

Digital Library Management System: *React, Spring Boot, REST APIs*

Live: lms-011.vercel.app

- Created a digital library platform featuring administrative operations and an integrated online book reader.

Car & Car Service Center Management System: *Spring Boot, Thymeleaf, HTML, CSS, Java*

- Built an end-to-end service management system streamlining customer records and real-time appointments.
- Optimized Spring Boot REST endpoints and payload processing for high-throughput during peak bookings.

Digital Artwork Auction & Management System: *Java, JavaFX, CSS*

- Engineered a JavaFX desktop app featuring real-time auction bidding mechanics and multi-user management.

AI-Powered Worldwide CGPA Calculator: *React, AI Integration, Tailwind CSS, REST APIs*

Live: cgpa-011.vercel.app

- Built a global CGPA calculation platform supporting automated country/university selection and grading rules.
- Integrated AI-driven extraction of official grading policies to ensure policy-compliant results.

emotiTag — Advanced Video Emotion Annotation Framework: *Tauri, Rust, React, TypeScript, Axum*

GitHub: github.com/sakib-011/EmotiTag-Video-Anotation-Tool

- High-performance desktop-native video annotation software engineered for thesis dataset collection.
- Features sub-second precision timestamping and standardized JSON bulk export for seamless dataset pipeline integration.
